ESNOC CHANGING LIVES FOREVER

Dear Friend of Epilepsy Support Network,

We have been hard at work, all year, urgently stopping seizures in our members like the above featured children. Alexander, Max and Samantha are all seizure free and enjoying a much improved quality of life due to the programs you have generously supported. Together, we have been an effective team in educating families about the importance of stopping seizures and saving lives.

Unfortunately, you know first hand how devastating it is to helplessly watch your loved one have a seizure. There is nothing more urgent for you, and us, than stopping that next seizure from happening. You can help us do just that, by donating to our 25 specialized programs and services, all specifically designed to reduce and stop seizures.

Please, make your donation, TODAY, so we can help prevent the next seizure and move our members from despair to seizure freedom. We have made a promise to our members to be there in their time of need and your donation allows us to keep that promise!

Working diligently to remain your favorite cause,

Janna L. Moore, MPA, Executive Director
